Visiting Policy

It is our policy that every child in the hospital should have the continuous support of their family when possible.

The welfare of your child must always be taken into consideration and at certain times visiting restrictions may be put in place.

Outside visiting times only parents or guardians can be with their child.

Visitors are welcome, between 10 am and 8 pm every day once a child's condition is suitable.

Over Night

Visiting is unrestricted for parents or guardians, however, only one person can stay overnight by their child's side

Visiting Restrictions

Babies under one year are not allowed to visit the hospital for health and safety reasons.

Children who have not been vaccinated should not visit the hospital.

Only 2 people are allowed to visit at the bedside at any one time.

It is recommended that visiting time is limited to 20 minutes for each visitor.

Visiting children must be accompanied and supervised by an adult at all times.

No hot drinks or visitor's food are allowed on the ward.

Patients are not allowed to visit the hospital canteen.

Visitor Responsibilities

It is important that you use hand hygiene gel when you enter and leave the hospital ward.

Please do not come to the ward if you think you might be an infection risk to others.

Please be responsible for your own belongings and follow the hospital mobile policy.

Please have consideration for staff doing their job.

Please consider other families need for rest and privacy.

Violence and aggression to staff will not be tolerated.
